PANEER

Automate your production and reduce product loss

Achieve Top Product Quality with Higher Yield – The Modular Kalt Solution for Paneer Production.

Increase your production output while reducing product loss and minimizing manual labor – all without compromising on quality. Our modular Kalt solution processes up to 150,000 liters of milk per day, with scalable automation levels tailored to your needs and growth plans.

Space-Saving. Efficient. Future-Proof. The smart carousel design requires minimal floor space and ensures a reliable, consistent production process – optionally available in a fully automated setup.

VALUE ADD FOR YOU

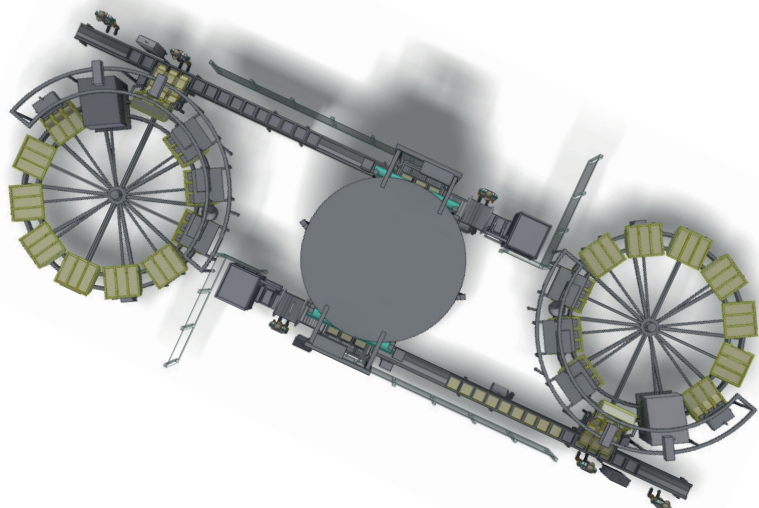

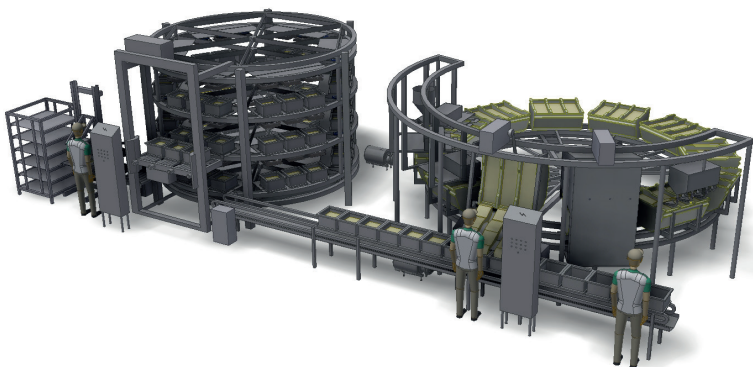

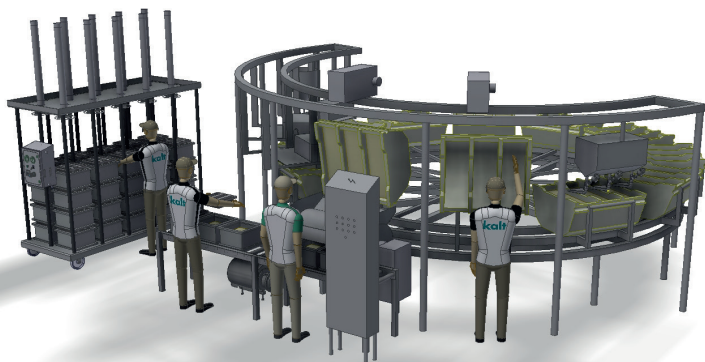

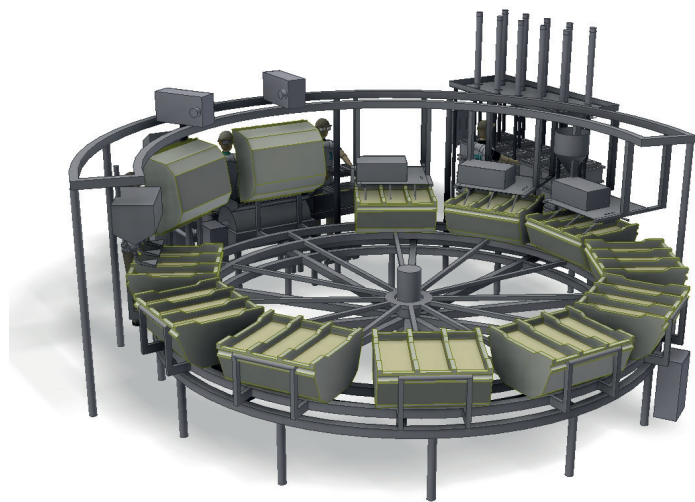

Modular design options enable maximum efficiency and profitability with minimal product loss – all within a small footprint

Optimized Paneer production with low operating costs, high hygiene standards, and minimal manual labour.

CUSTOMER BENEFITS

Achieve up to 3% more yield with a highly efficient production solution that reduces labour costs and ensures greater weight accuracy in the final product.

Benefit from a highly reliable production system with minimal maintenance and low operational costs – built for long-term efficiency.

Built to the highest hygienic standards with flexible, scalable automation – tailored to your production needs.

SOLUTION PACKAGES

Our **starter kit delivers 500 kg/h output** with a footprint of only **60 m²**, operated efficiently by just **3–4 employees per shift** – the perfect base for future growth.

As a investment for the future, our **semi-automated system delivers 1,000 kg/h** of daily production on just **80 m² of floor space**. Designed for scalability, it can be efficiently operated by only **2–3 employees per shift** – making it the ideal starting setup with room to grow.

For a maximum of **2000 kg/h**, we offer a fully automated Paneer production system with a capacity of up to 2,000 kg/h. Requiring only 1–2 employees per shift, this high-performance setup fits within a compact 150 m² footprint, making it the ideal solution
